### Sponsorship and Exhibition Opportunities

Excellent opportunities exist to showcase your organisation. For further information, please contact: Samuel Wilson, *Sponsorship Manager* on (+61 2) 9080 4371 or email [samuel.wilson@informa.com.au](mailto:samuel.wilson@informa.com.au)

### WIGGLESWORTH LECTURE

**When:** Tuesday 15 September 2015

**Time:** 6pm cocktails and canapés for a 6.30 lecture start

**Where:** RMIT University - Main City Campus

**Presenter:** Rosa Carrillo, *President, Carrillo & Associates, USA*

Rosa Antonia Carrillo, President of Carrillo & Associates, is a thought leader in transformational leadership for environment, safety and health. She brings 20 years of industry experience. Her unique understanding of safety culture and complex environments is translated into direct and concrete recommendations and tools to manage environmental protection and safety performance. The issues confronting high hazard operations are unique and require a fresh approach to ongoing challenges. For further information on the lecture contact the SIA National Office: (03) 8336 1995.

# DAY 2 SIA National Safety Convention 2015

## Thursday 17 September 2015 | Stream C: Risk Engineering

8.00 Morning Coffee

### 8.30 Opening remarks from the Chair

Geoff Hurst, *Principal, ENGENEOHS (OHS, Engineering & Environment) & Facilitator, EEA (Engineering Education Australia)*

### SAFETY BY DESIGN

#### 8.40 Safety in Design

Good design is always implied where safety is considered but even those who are well intentioned still lack guidance on what really constitutes a safe design & a Safe Design process. Design is multi faceted and multi disciplined and invokes various opinions.

This Stream provides a facilitated open forum that will encourage discussion on the questions related to SiD. It will be introduced by thought provoking comment from a panel of Safety & Design professionals and then stimulate and collect knowledge and ideas around: the breadth of the SiD field; it's length by way of considering what is and what is not included; and then, time permitting, work on what should be included in a scope definition that supports a suitable set of Safe Design titles. It is hoped that this will provide a platform for future detailed research and discussion to formulate the body of knowledge for designers, engineers and the Generalist OHS Professional. Whatever the outcome, this will be a lively exchange of knowledge that should not be missed.

Session Moderator: Dr John Culvenor,  
**Independent consultant in ergonomics and occupational safety**

#### The Role of Due Diligence Engineering

Gaye Francis, *Risk Management & Due Diligence Consulting Engineer and Director, R2A*

#### A Risk Engineering Perspective

Ian Ackland, *Ackland EQS Management Systems*

Stephen Young, *Victorian Institute of Occupational Safety and Health*

#### Safety in Design and its implementation

John Giles, *Principal, Appleseed Engineering*

#### Engineered Safety

Mike Hurd, *Proprietor, Engineering Systems Management*

#### Opportunity in Design

Pedram Danesh-mand, *Director: Risk Management, NSW President, Risk Engineering Society (RES)*

10.30 Morning Tea

### DUE DILIGENCE ENGINEERING – SAFETY CASE

#### 11.00 Risk Engineering - Due Diligence Engineering - Safety Case

November 2014 saw the release of the Risk Engineering Societies' Safety Case Guidelines 3rd Edition that has stimulated debate about the utility and application of the Safety Case Process.

This session will be introduced by brief opinion from Practising Professionals and then launch into a facilitated open forum that permits and encourages the exploration of the purpose, utility and application of the Safety Case concept for all project work large & small.

Geoff Hurst, *Principal, ENGENEOHS (OHS, Engineering & Environment) & Facilitator, EEA (Engineering Education Australia)*

#### SCG & Due Diligence Engineering

Gaye Francis, *Risk Management & Due Diligence Consulting Engineer and Director, R2A*

#### SCG and application of Risk Standards

Marcus Punch, *Director, Marcus Punch Risk and Reliability Pty*

#### SCG and Risk Decision Making

Mike Dean, *Director, EUC Engineering*

#### Application in Engineered Safety on SC

Mike Hurd, *Proprietor, Engineering. Systems. Management*

#### Realising Opportunities in projects using SC

Pedram Danesh-mand, *Director: Risk Management, NSW President, Risk Engineering Society (RES)*

12.30 Lunch and exhibition exploration

### RISK AND REWARDS
