

A ONE DAY WORKSHOP

SAFETY IS ON THE EDGE

June 29, 2016 // ATLANTA, GEORGIA

THESE IMPORTANT QUESTIONS WILL BE ADDRESSED:

- ▶ Why do 'safe' organizations have disasters?
- ▶ Why do we have a safety plateau?
- ▶ How do we break through?
- ▶ What will the safety look like in the next 5-10 years?
- ▶ What is a 'resilient' organization?
- ▶ What is the difference between managing and leading?
- ▶ Going from 'good to great to awesome' in safety?
- ▶ Why not go to 'awesome' and what does that look like?

TWO OF TODAY'S LEADING THINKERS IN SAFETY WILL SHARE A STAGE ON 29 JUNE 2016 IN ATLANTA, AND YOU HAVE THE OPPORTUNITY TO BE PART OF IT!

CORRIE PITZER is CEO of SAFEmap and RISKmap, which he founded in 1994, after completing degrees of Bachelors and Honours in Industrial Psychology, Honours Bus Admin (Cum Laude), an MBA and a graduate Diploma in Education. He worked in the resources industry for 10 years as the Group Risk Manager for Billiton (now BHPBilliton) and then founded SAFEmap International in Australia. In 2013 the American Society of Safety Engineers (ASSE) selected him as Safety Professional of the Year.

DR TODD CONKLIN holds a Ph.D. in organizational behavior and communication from the University of New Mexico. He speaks all over the world to executives, groups and work teams and is the author of several books including the best selling, Pre-Accident Investigation. Todd spent 25 years as a Senior Advisor at Los Alamos National Laboratory, one of the world's foremost research and development laboratories.

Management, human sciences, technology and engineering have all made huge advances in the last few decades that left the safety profession behind. In safety, we are still stuck in a psychology that is 30-40 years outdated, where many of our safety concepts are from the 1950's and earlier and are now obsolete, and yet we still run with them every day, faster and harder.

"Safety is on the Edge", balancing on a cliff's edge, and if we as safety professionals don't recognize this and become part of the change, we run the risk of being left behind. Safety in most organizations has plateaued, and even deteriorated despite our best efforts. We simply have to start doing safety differently, but what, how and why?

VENUE // Embassy Suites Centennial

TIME // 9.00am - 4.00pm registration from 8.30am for 9.00am start
